## PRECINCT DELEGATES

Representative conservative democrats have endorsed the following ticket for delegates from the city precincts to the Democratic County Convention to be held at Poynton, April 14 and ask that they be given a hearty support by the voters:

Precinct 12—C. H. Gingles, David Sheehan, Wm. Bazzell, J. D. Maxwell, and T. F. Wright.

Precinct 13—W. A. Blount, Thos. Hannah, John Christie, J. Geo. White and W. T. Duncan.

Precinct 14—Geo. Brown, Jos. I. Johnson, J. S. McLaughlin, John Pfeiffer and J. E. Haars.

Precinct 15—E. H. Putnam, John West, Wm. Bennett, J. E. Abercrombie and W. A. Dunham.

NEWSPAPERDOM is all a-gog over Mr. Sheldon's daily Topeka newspaper, in which he promises to show the world how our Savior would edit a daily paper. If Christ was on earth now he would have nothing to do with the newspaper business, and the net result of Mr. Sheldon's mighty effort will be to bring coarse ridicule from the carnal-minded upon holy things, to make a great deal of money for a worthy object, and to do very little permanent good.

## The Plagues of the East.

The epidemic pestilences which often devastate whole countries on the eastern hemisphere and in the tropics have thus far measurably spared the people of the United States. Asiatic cholera has made occasional visits, but found no foothold for permanent occupation. Yellow fever has appeared from time to time in limited areas, but climatic conditions and the persistent and skillful opposition it has met, have caused its disappearance and shorn it of its terrors. Small-pox is preventable by vaccination. Consumption we have always with us in some sections, and always shall have until the medical authorities recognize it as a distinct danger, to be averted by precautions—like isolation—such as are used in the treatment of other plagues.

The recent acquisition of new territory in the East and in the tropics will open our doors to classes of diseases hitherto unknown. Already leprosy exists in certain localities, the direct result of intercommunication with foreign countries and peoples. Last of all comes the bubonic plague of India, instantly traceable to the growing intimacy of our commercial relations with countries where it is at home.

Although, so far as has been made known, only a single case of this loathsome and fatal malady exists upon United States soil, it has been seeking entrance at the ports of both oceans, and may shortly become duly acclimated and take its place in the long list of deadly diseases that follow inevitably in the wake of so-called "expansion."

In view of the imminence of our danger, is not quite time that the medical department of our government should be overhauled, purged of the abuses with which it is honey-combed, and put into fighting trim, for the impending combat with the perils that beset and threaten us?

"Ill weeds grow apace." Impurities in your blood will also grow unless you promptly expel them by taking Hood's Sarsaparilla.

## A HINT.

Coffee, which makes the politician wise, and see through all things with his shut eyes.

Politicians are not the only persons who like good coffee, and if the politicians who are now engaged in shelling the woods of Escambia county for votes would treat their intended victims to a good, hot cup of coffee, instead of "red liquor" and campaign cigars, they would all stand a better chance for a full vote and their share of it.

The coffee of which the poet sang was identical in quality, flavor and aroma with the choice blends now offered to a discriminating public by C. H. Gonzalez & Son, and no one who gives them a fair trial ever regrets it. This excellent house also presents to the housekeepers of Pensacola one of the best selected assortments of fine fancy and staple groceries in the city, and invites a trial from those who have not yet opened an account with them.

AMONG THE  
BUSY BUILDERSWork of the Week Done By  
Union Men.

An Interesting Report on New Buildings, Repairs and General Improvements, Reported for The News by the Efficient Business Agent of the Carpenters' Union.

A beautiful residence of handsome design, with carefully selected material of the best quality, erected by the best mechanics the country affords, which the owners are justly proud of, and have expressed themselves as more than satisfied. This lovely dwelling is owned by Capt. and Mrs. Aiken, which is nearly finished at 720 North Palafox street. The contract was awarded some time ago to Chas. H. Turner. The writer was shown over the building by Chas. H. Gingles who has superintended the work. The dwelling is a two-story structure of modern design. The foundation and exposed chimney, backs and tops are granite rock, painted up with a dark cement which makes a beautiful finish and which the stone mason calls rubble work. The basement has servants' quarters and laundry room.

The first floor consists of vestibule, reception hall, parlor, dining room, butler's pantry and kitchen; front and back porch. The front porch is one-story, with heavy colonial cornice.

The basement walls extend up above the floor of the porch, the height of the ordinary baluster rail, which is capped with Georgia marble.

The columns are turned juniper placed on a base of marble. The circular steps are also of Georgia marble.

The vestibule floor is of figured tile, the walls are paneled, and it has a moulded ceiling.

The reception hall has ruff floor, paneled cypress wainscoting extending around the room and up the beautiful Queen Ann stairway to the hall above. At the foot of the stairway is a unique window with stationary side lights of art glass; the center glass is one half art and the other half plate glass. This room has a fine oak mantel, showing a half circle against the enameled tile facing and hearth.

The dining room is octagon in shape with cove ceiling and ruff floor, moulded carving and base board, with select cypress panel wainscoting, to be stained a rich mahogany to match an elegant mantel of that wood.

Double sliding doors are between the dining room and hall and between hall and parlor. The last named room will remain in an unfinished condition for the present.

The back porch is enclosed with blinds on the first floor and has two stairways, one leading to the basement, the other to the floor above.

The floor above is composed of four bed rooms, two bath rooms, linen closets, etc. The bath room and closets are finished in natural pine.

The wood work in the bed rooms will be finished in natural wood and frescoed walls. One room is to be finished in blue with trimmings of white and gold. Another room is to be finished in red with black and gold trimmings. The remaining rooms will be finished in golden oak.

The entire job throughout shows a very high grade of workmanship that cannot be excelled.

The most of the material used in the stairway, such as mouldings, hand rail, etc., was manufactured at the building, and all of the inside finish was placed in the bench and redressed by hand, scraped and sand-papered before it was used. Undoubtedly this is one of the finest dwellings in the city and should be seen to be appreciated.

Mr. E. B. Morey, the manager of Mr. Turner's plumbing department, showed us over and explained the plumbing system, which is very complete and decidedly modern in style, finish and workmanship. The two bathrooms on the second floor are each fitted with high grade enameled tubs and Italian marble lavatories, one of which has a large beveled plate glass mirror and is very imposing.

There are two water closets, one in basement and the other on second floor, each in a room devoted to its use exclusively, the latter being one of the most elegant closet outfits we have ever seen and as described by Mr. Morey positively sanitary.

The kitchen and pantry are fitted with large enameled sinks with enameled backs, and the kitchen is supplied with a fifty gallon boiler, which is connected with all fixtures throughout the house, giving hot and cold water to each.

The water supply main to the house is one inch galvanized pipe and is independent of the yard line, so that one can be cut off without interfering with the other.

Each fixture has its individual hot and cold supply pipes, so arranged with valves that it can be repaired without interfering with the use of any other fixture.

All supply pipes are laid with a grade and drain cocks, so that every drop of water can be drawn from the system.

The waste and sewer pipes are so laid with clean cut screws that every run can be thoroughly cleansed without breaking into pipes or damaging the building in any way.

All piping in the house, both supply and waste, is covered with panels put in place with screws, so that it can easily be gotten at when desirable, without damage to the walls.

No doubt this is the most complete and perfect plumbing system in the

HOOD'S  
SARSAPARILLA

In stomach troubles, has a "magic touch," promptly relieves distress and all other dyspeptic symptoms. It makes rich, pure blood, gives strong, steady nerves.

## CREATES AN APPETITE, AIDS DIGESTION.

city and does great credit to Mr. Turner's plumbing department.

Messrs. Watts & Lewis are erecting a very pretty little cottage for Henderson Benjamin at the corner of Coyle and Gadsden streets.

J. M. Clark has about completed some repairs on the cottage at 110 East Gregory street, which is occupied by Mrs. Donaldson.

Mr. J. Willock is erecting a beautiful trellis for vines at the residence of W. S. Rosasco, 518 North Palafox street. Mr. Willock has also just completed a neat and convenient cottage for Dr. Ambler of DeFuniak Springs.

Contractor A. V. Clubbs has a force of men tearing down the frame building at the rear of what used to be the Park hotel preparatory to fitting up a grocery store for A. Greenhut. The material will be used as far as practicable in the erection of four cottages for Mr. Greenhut, two of which are four room cottages to be erected on North Alcaniz street, the other two are smaller ones and are to be erected around the corner from Alcaniz on Cervantes street. Mr. Clubbs has the contract.

Mr. Clubbs' contract on the powerhouse is completed and a number one job of work it is. The owners expressed themselves as well pleased with everything. The entire building, including the old part, 80 feet fronting on Barracks street and extending to Tarragona street, a distance of 100 feet. The new part has four engines, two of which are 15-horsepower; each of the other two are 100-horsepower. The old part of the building has three engines of 100-horsepower, making a total of 300-horsepower. The machinery is of the latest pattern and so arranged that if one or two engines were disabled at one time, there would yet remain power enough for all purposes. Everything will be in working order about the first of April, when we will have one of the best, if not the best, equipped plants in the South, and no doubt there will be quite an improvement in our street lights.

The carpenter shop of the Pitt Mill Co. has turned out the following work the past week: 24 church pews for the Episcopal church on East Cervantes street, 18 church pews for the Santa Rosa Lumber Co., 3 incubators for Jas. Gonzalez, a lot of door and window frames for the board of health, show case for Geo. Furton, and a fine lot of turned column and baluster for various jobs and fancy trellis for J. Willock.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself begin to catch cold, we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. MARBLE, General Merchant and Farmer, Mattie, Bedford county, Pa. For sale by Hannah Bros., 21 South Palafox street.

## Death of Mrs. Bennett.

Mrs. Ann C. Bennett of this city died here at 8 o'clock this morning, aged 84 years. Mrs. Bennett was a sister of Mr. J. B. Roberts and mother of Mrs. C. B. Vetter, Mrs. James McCullagh, Mr. L. C. Bennett and Mr. Stephen Bennett. The funeral will take place from the residence of Mr. James McCullagh on East Jackson street at 3:30 o'clock to-morrow afternoon.

## ABOUT SMALL POX.

The Offer of Free Vaccination Should Be Accepted.

The agent of the state board of health gave notice in the city papers several days ago that on three named days each week persons applying at his office would be vaccinated free of charge. Up to this date not a single person has applied for vaccination. This fact indicates one or the other of two conditions: Either that there exists a strange indifference to the dangers of the dreadful malady, or that the people of the community have such implicit confidence in the ability of the local health authorities to protect them from its ravages that they regard the precaution of vaccination as unnecessary.

Nevertheless, in either of these conditions lies great danger. The disease prevails not only in several of the neighboring states, but there are places in Florida where it exists; and too much indifference to the means of absolute protection so freely offered is not only wrong, but is inexcusable.

In Alabama, a health official recently stated that the disease exists in 40 counties, and there is a movement toward the enactment of a law compelling vaccination, as in Georgia.

One of the latest public health reports of the Marine Hospital Service, covering the period from December 29, 1899, to March 2, 1900, shows the existence of small pox in no less than 263 counties and cities in 35 states of the Union, with 4,756 cases and 224 deaths. In Louisiana, 31 counties and cities are reported, with 1,810 cases and 171 deaths. A later report from New Orleans shows 81 deaths in February. In Texas, 51 counties and cities report 297 cases and 3 deaths. In Mississippi, 1 county with 303 cases and 9 deaths. In Alabama, 3 counties with 111 cases and 1 death. In Georgia, 10 counties with 122 cases.

THE NEWS is not an alarmist, but it regards the offer of the state health authorities of absolute protection and immunity from this loathsome disease, by vaccination free of cost, as one that the people of this city should not longer hesitate to avail themselves of.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. For sale by Hannah Bros., 21 South Palafox street.

## SELMA-PENSACOLA.

Commencing Monday, March 19, trains between Pensacola and Selma will be run on following schedule:

Leave Pensacola, 12:45 noon; arrive Selma, 8:45 p. m.

Leave Selma, 8:00 a. m.; arrive Pensacola, 4:15 p. m.

Daily, except Sunday.

## MOUNTAIN MINT TONIC.

One year ago to-day I placed on the market my preparation—Mountain Mint Tonic. Advertised in "THE DAILY NEWS" for a period of six months. Prior to this, the medicine was unknown to the public. Up to date, 4206 bottles have been sold. The Tonic has made friends wherever it has gone, and practically no one has complained that it is not exactly as represented.

Recently I have made a valuable addition to its composition, enhancing its value very much. This has been done at great expense to me, while the price to the public remains the same, namely: One dollar per bottle, six bottles for five dollars.

The addition spoken of above is directed especially to the relief of indigestion in its varied forms.

With proper diet the Tonic will cure the worst forms of this tormenting affliction with its hundreds of obscure symptoms, often referred to other organs than the stomach.

By this addition, its virtues as a general tonic and invigorator and blood purifier, are not impaired in the least. No better medicine can be found for the relief of those diseases that are so prevalent in the spring months.

I take this opportunity to thank my friends for the support they have given this Tonic, and promise that Mountain Mint Tonic, as improved, will give still better satisfaction.

PHILIP E. HANNAH.

## Executive Committee Meeting

A meeting of the Democratic Executive Committee of Escambia county is hereby called for Monday, March 19, at 8 o'clock, at the residence of County Judge T. R. McCall for the transaction of such business as may come before it.
